

# Unlock the Brain Puzzle

## Become Part of European Dementia Research!

**Alzheimer Europe** is a non-profit, non-governmental organisation whose mission is to change perceptions, policy and practice so as to improve the lives of people with dementia.

In 2023, we created the **Public Involvement Pool**. This is a kind of online advisory board which enables people from all around Europe with an interest in brain health to influence dementia research in a meaningful way.

## What can you expect from joining?

- **Influence how research is conducted**
- **Share your experience & insight with researchers** (through online surveys or meetings)
- **Receive newsletters** about news and events
- **Get feedback** on how your contributions have been used
- **Get involved as much or as little as you wish** (minimum 1 contribution per year)
- **Opt out at any time.** Your privacy is protected by Alzheimer Europe's General Privacy Policy.

## Sign up if you:

- have a cognitive impairment or dementia, are supporting someone who does, or have an interest in brain health
- are over 50 years old
- are proficient in English (able to express your opinions)
- are eager to share your experiences and views
- are able to take part in online meetings
- **are not** a student or health care professional

SCAN TO SIGN UP!

You can sign up by scanning the QR-code or writing an email to [Sarah.Campill@alzheimer-europe.org](mailto:Sarah.Campill@alzheimer-europe.org)
